RE: Docket N. 98N-1265

To Whom It May Concern:

I have been made apprised of the following situation today.
I hope it is not too late to bring my concerns to your
attention.

I am writing as a consumer of healthcare services to
register my concern and disapproval of the Memorandum of
Understanding as published by the FDA on January 21, 1999.

In its resent form, the MOU, as well as the Compounding
Section of 503A of the Modernization Act, severely restricts
the rights of the physicians and patients to obtain
healthcare products from the provider of their choice. It
also infringes on the rights of compounding pharmacists to
serve the public's medical needs. There should be no
restrictions to the delivery of a compounded medication
prescribed for me, regardless of where I mal live or man
travel. Please amend the MOU.

I am using a compounded estrogen creme. I will never use
estrogen composed of estradiol, nor estrogen made from the
urine of pregnant mares. I need the creme I use, and
implore you to protect my access to this product, and any
other specially compounded medications.

Sincerely,

Juliette Colangelo
